

32th IEEE Int. Symposium on Computer Based Medical Systems Cordoba, Spain, 5-7 June 2019

ORGANISATION TEAM

GENERAL CHAIRS

Sebastian Ventura

Universidad de Córdoba (Spain)

Alejandro Rodríguez González

Universidad Politécnica de Madrid (Spain)

Paolo Soda

University Campus Bio-Medico di Roma (Italy)

PROGRAMME CHAIRS

Ernestina Menasalvas

Universidad Politécnica de Madrid (Spain)

Myra Spiliopoulou

*Otto-von-Guericke-University Magdeburg
(Germany)*

Jose Maria Luna

Universidad de Córdoba (Spain)

OTHER INFORMATION

CBMS will also have a Doctoral Consortium and a Showcases/Research projects track session.

If you have any inquiry, you can contact us.

Check our webpage and follow us in social networks to stay up to date!

Attracting a worldwide audience, CBMS is the **premier conference** for computer-based medical systems, and one of the main conferences within the fields of medical informatics and biomedical informatics. CBMS allows the exchange of ideas and technologies between academic and industrial scientists. The scientific program of IEEE **CBMS 2019** will consist of regular and special track sessions with technical contributions reviewed and selected by an international programme committee, as well as, keynote talks and tutorials given by leading experts in their fields. The **CBMS 2019** edition also aims to host high-quality papers about industry and real case applications as well as allow to researchers leading international projects to show to the scientific community the main aims, goals and results of their projects.

We solicit submissions on previously unpublished research work. Example areas include but are not limited to:

- Active and Healthy Ageing Systems
- Analytics and solutions in Public Health
- Big Data Analytics in Healthcare
- Bioinformatics
- Biomedical Signal and Image Processing and Machine Vision
- Cognitive Computing in Healthcare
- Computer Supported Cooperative Work in Healthcare (CSCW)
- Computer Vision
- Computer-based solutions in epidemiology
- Content Analysis of Biomedical Image Data
- Databases and blockchain
- Data Analysis and Knowledge Discovery
- Data mining and machine learning
- Data mining and machine learning in epidemiology
- Decision Support and Recommendation Systems
- e-Health
- Human-Computer Interaction (HCI) in Healthcare
- Knowledge Representation
- m-Health
- Medical education using ICT
- Medical Robotics, Intelligent Medical Devices and Smart Technologies
- Network and Telemedicine Systems
- Radiomics and Radiogenomics
- Serious Games for Healthcare
- Software Systems in Medicine
- Technology Enhanced Medical Education
- Technology in Clinical and Healthcare Services Research
- Web-Based Delivery of Medical Information

IMPORTANT: Special issues in 3 JCR-indexed journals are available.
Check Call for papers → Special issues for more information!

IMPORTANT DATES

- **Deadline for paper submissions:** ~~January 14, 2019~~ February 4, 2019
- **Acceptance notification:** ~~March 1, 2019~~ March 28, 2019
- **Conference:** June 5-7, 2019

For more information check
www.cbms2019.org and
follow us at **@cbms2019**

FOCUSED SPECIAL TRACKS ARE ALSO AVAILABLE. CHECK WEBPAGE FOR MORE DETAILS!
