METHODOLOGY

General clarifications on the methodology. (optional)

The focus will be on achieving communicative competence. We will practice the four basic skills (reading, listening, speaking and writing). The coursebook has been carefully chosen so that not only the functional and communicative activities but also the structural ones are smoothly combined to achieve the specific competences we have already mentioned.

This communicative (and practical) approach will allow the discussion, analysis and debate of thematic issues, providing a context for English language learning. In addition, we will also use different pedagogic resources to reinforce and pace the learning of the language and to develop intercultural awareness.

Our aim is that this course helps students improve their knowledge, attitudes and behaviours to achieve the competences that they will need in further academic courses and in their future professional life.

Methodological adaptations for part-time students and students with disabilities and special educational needs

Part-time students will have to get in contact with the teacher at the beginning of the term. Assessment procedures will be adapted for each particular case and extra activities will be provided.
