The aim of this course is to offer students a historical overview of the literature written in English from the Middle Ages to the present.

Students will read and analyse several narrative, poetic and dramatic works and selected extracts written by the most relevant authors so that topics, strategies and literary conventions of each period may be well illustrated and more easily identified.

A basic contextual approach with reference to major historical and cultural events which have shaped the literature produced in English-speaking nations will be provided as well. The aim is to allow students to better understand the evolution that this multiple and diverse tradition has undergone through time.

The student should be able make a comprehensive and close reading of the books. A close reading is thoughtful, critical analysis of a text that focuses on significant details or patterns in order to develop a deep, precise understanding of the text's form, craft, meanings, etc.
