The methodological strategies and the evaluation system contemplated in this Course Description will be adapted according to the needs presented by students with disabilities and special educational needs in the cases that are required.

CONTINGENCY PLAN: CASE SCENARIO A

Case scenario A will correspond to a diminished on-site academic activity due to social distancing measures affecting the permitted capacity of classrooms.

METHODOLOGY

General clarifications on the methodology on case scenario A

A multimodal (hybrid) teaching system will be adopted, combining both on-site and remote classes via videoconference (synchronous) that will be held in the timetable approved by the corresponding Faculty or School. The time distribution of teaching activities (both on-site and remote) will be decided by the aforementioned Faculties and Schools bearing in mind the permitted capacity of classrooms and social distancing measures as established at that time.

In Case Scenario A, this course will follow a continuous assessment process. Regular attendance is required. The requirement of regular attendance means that the student must be present for at least 80% of class time. Active participation in class (especially in on-site classes) is an essential element of the course assessment.

In the event of a State of Health Emergency that prevents normal face-to-face teaching, course coordinators will be asked to provide an addendum to the teaching guide, which will follow the established model for 2019-2020. This addendum will have to be approved by the corresponding Department and uploaded both in the degree
