### METHODOLOGY

#### General clarifications on the methodology (optional)

The English language is presented as a tool to serve a communicative purpose in a commercial and administrative context. Therefore, the methodology focuses on the communicative use of English and the four basic skills (reading, speaking, listening and writing) will be practiced in the commercial field, without neglecting the use of English in other more general situations.

In class, the handbook indicated in the bibliography will be followed. In addition, texts of more specific content will be distributed during the seminars which students must work on during segments of the class or at home approaching the week of the seminar.

The more theoretical activities will be complemented by practical sessions which aim to influence the skills of oral and written production. Also, students will have the opportunity to improve listening skills through audio related to the contents of the subject and communicative practice.

#### Methodological adaptations for part-time students and students with disabilities and special educational needs
