

JOB DESCRIPTION

Position Title: Greenhouse Production Manager

Duty Station: Heho (Shan State)

Position Category: Full-time

Duration: 6 months

Salary Level: Depending on experience

ESSENTIAL JOB FUNCTIONS:

Fresco Myanmar Ltd (Fresco) is the lead company in European vegetable production in Myanmar and has its main production in Shan State, Myanmar. Fresco has modern greenhouses (Dutch technology) with a total area of 6,000 square meters, to produce tomatoes and bell pepper in a hydroponic protected environment.

Fresco is looking for a Greenhouse Production Manager to manage its bell peppers and tomatoes cultivations in the greenhouses:

He/she will manage:

- Greenhouse supervisors and teams
- Climate control system settings and monitoring (Priva - Nutrifit, venting, watering);
- Crop nutrition including daily and weekly nutrition actions for all stages of the crop cycle;
- Pest and disease management including implementing daily and weekly control strategies, incorporating IPM;
- Water resource management including daily and weekly actions, operational troubleshooting of water systems and equipment;
- Leading / participating in projects to improve quality, safety, performance and yield;
- Prepare growing protocols for pepper and tomatoes (watering, plants nutrition, pests and diseases management).

KNOWLEDGE AND EXPERIENCE:

- Minimum of 2 years' experience in a greenhouse environment, preferably with experience in all areas of crop work for bell peppers and tomatoes;
- A good knowledge of tomato and bell pepper crop nutrition, pest and disease management and growing strategies;
- Experience/exposure to the Priva system (or similar);
- Strong communication and interpersonal skills, with experience effectively leading a team;

JOB DESCRIPTION

- Be outcome focused with a track record of achieving performance, quality and safety targets;
- Excellent problem solving skills and demonstrated resilience, positivity and perseverance;
- Excellent attention to detail and the ability to effectively manage multiple priorities under pressure;
- Ability to work independently and also effectively as part of a team;
- Strong IT skills;
- Commitment to WHS, quality, hygiene and food safety;
- Tertiary qualification in Horticulture, Agronomy, Plant Science, Agrifood Systems or Rural Science will be highly regarded
- Good in spoken and written English.
