### General clarifications on instruments for evaluation:

Global assessment will be based on the mark in the final exam, which will make 60% of the global mark, and the mark in problem solving, consisting in different practice activities on each of the different topics of the syllabus. Since these are group activities (as the exercises are done in teams and corrected in class), the marks obtained in practice activities will make 40% of the final mark.

A grade of "NO PRESENTADO" will be given to students who have not taken part in a number of evaluable activities adding up to more than 50% of the final grade (Art. 80.4 of the Regulations for the Undergraduate Studies Academic System).

Those students who have participated in assessment activities other than the final exam whose accumulated weight towards the final grade exceeds 50%, but has not attended the final exam in the course, the teacher will record "NO PRESENTADO" in the provisional publication of the grades.

If during the review process a student does not express his disagreement with this grade, it will be confirmed as the final grade for the course. Otherwise, the student must notify the professor, and his final grade
