

ISTPLUS

Postdoctoral Program: **Call for applications**

IST Austria has implemented a program for exceptional postdoctoral scientists. The program provides postdocs with an international and interdisciplinary research environment. ISTplus postdocs' careers will be enhanced by IST Austria's career development program and options for intersectoral secondment. Appointments are for two years. Contracts may be extended beyond the duration of the initial appointment.

Application deadlines: March 15th and September 15th

Positions are available in the following fields:

Biology | Computer Science | Mathematics | Physics | Neuroscience

Benefits:

- International, Interdisciplinary, and Intersectoral fellowship program
- 2-year, fully funded postdoctoral position
- Collaborative research environment
- Opportunities for secondment
- Workshops and training for career development
