OBJECTIVES

The main objective is to offer an introduction of the pronunciation of English at the suprasegmental level (stress, rhythm and intonation) in three different levels:

a) theoretical (understanding the biological principles of speech production and the scope of the disciplines of Phonetics and Phonology);

b) descriptive (offering a description of the characteristics of the pronunciation of stress, rhythm and intonation of

English, mainly of the two most relevant accents -British and American).

c) practical (giving the opportunity to students to practise all the aspects covered).

CONTENT
