#### Method of assessment of attendance:

Please, see section \"General clarifications on instruments for evaluation\"

#### **General clarifications on instruments for evaluation:**

The evaluation tool "Log" refers to the attendance and attainment at the seminars. Attendance at seminars is compulsory. Checklists will be used for this purpose.

The evaluation instrument "Real and/or simulated tasks" refers to the performance of the students during the face-to-face internship. For its evaluation, the report sent by the educational centre will be used, by means of a monitoring protocol common to all centres. It will be prepared by the professional tutor and adapted by the Faculty to each level of the Practicum. This report must be satisfactory (mainly in relation to the issues of commitment, respect and interest in learning during the internship period in the centre) in order to pass the Practicum subject.

The evaluation instrument "Placement reports" refers to the individual and group documents generated with the observation and analysis of the students, and the poster presented in the final session. All this will be collected in a final report.

In order to pass the subject, a good level of linguistic and communicative competence is essential. Lack of accuracy in the production of oral or written texts may have a negative impact on the final grade.

#### **IMPORTANT**

The academic tutors are the only responsible for the evaluation of the students. In this sense, the students will not have the right to request information about their evaluation from their professional tutors under any circumstances

Attendance and punctuality will be essential requirements for passing the Practicum I.

In the event of an act or conduct that is not appropriate in an educational centre, contrary to coexistence or to the basic deontological principles governing internships, the coordination team, in accordance with the academic tutors, may determine the nullity of the internship and the corresponding negative evaluation of the student.

# Clarifications on the methodology for part-time students and students with disabilities and special educational needs:

The Practicum I coordination team may make any adaptations it considers appropriate in relation to part-time students

In the case of students with special educational needs, the recommendations given by the Inclusive Education Unit (UNEI) will be followed.

# Clarifications on the evaluation of the first extraordinary call and extra-ordinary call for completion studies:

Due to the singularity of this subject, the evaluation criteria for the first extraordinary exam and the extraordinary exam for the end of studies will be regulated by the Coordination Team.

#### Qualifying criteria for obtaining honors:

Those defined in the Academic Regulations of the University of Cordoba. They will be awarded, at the proposal of the teaching team, for having demonstrated excellent results (minimum grade of 9.5). They may not be awarded if this academic level is n

The methodological strategies and the evaluation system contemplated in this Course Description will be adapted according to the needs presented by students with disabilities and special educational needs in the cases that are required.

### CONTINGENCY PLAN: CASE SCENARIO A

Case scenario A will correspond to a diminished on-site academic activity due to social distancing measures affecting the permitted capacity of classrooms.

#### **METHODOLOGY**

### General clarifications on the methodology on case scenario A

A multimodal (hybrid) teaching system will be adopted, combining both on-site and remote classes via videoconference (synchronous) that will be held in the timetable approved by the corresponding Faculty or School. The time distribution of teaching activities (both on-site and remote) will be decided by the aforementioned Faculties and Schools bearing in mind the permitted capacity of classrooms and social distancing measures as established at that time.
