OBJECTIVES

The main objective of this course is to make students achieve a level of competence in English corresponding to the B1.2 level (intermediate) of the Common European Framework of Reference (CEFR). The focus will be on the five different skills: written comprehension (reading), oral comprehension (listening), written expression (writing), oral expression (speaking) and oral interaction. When reaching the B1.2 level, students will be able to:

- understand the main points of clear standard input on familiar matters regularly encountered at work, school, leisure activities, etc.;
- interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible;
- present clear, detailed descriptions on a wide range of subjects related to their field of interest;
- describe personal experiences and events, goals and achievements;
- briefly give reasons and explanations for opinions and plans.

METHODOLOGY

General clarifications on the methodology (optional)

Students will have to use the chosen textbook (Face2Face, Intermediate, Student's Book, CUP). In addition, they will be provided with extra material on the Moodle platform.

Methodological adaptations for part-time students and students with disabilities and special educational needs

Part-time students who cannot follow the course on a regular basis will have to communicate their condition to the teaching staff at the beginning of the course (during the first two weeks). These students are required to follow the same assessment criteria, so they will have to submit all the different tasks proposed during the course, but flexibility will be offered in terms of deadlines.

Students with special learning capacities will have to communicate their condition to the teaching staff at the beginning of the course, so materials and assessment methods can be adapted according to their needs.
